ALIKE

Alike is a text typeface with expressive and tense letterforms.

Its design features are said to have Czech influence, but are softened for a friendlier feel. The proportions are regular and the contrast is low for a pleasant reading experience.

It was initially designed by Sveta Sebyakina 2009–2011.

Usage:
5.43 Mill

ROBOTO

Roboto has a dual nature.

It has a mechanical skeleton and the forms are largely geometric.

At the same time, the font features friendly and open curves.

While some grotesks distort their letterforms to force a rigid rhythm, Roboto doesn't compromise, allowing letters to be settled into their natural width.

This makes for a more natural reading rhythm more commonly found in humanist and serif types.

Usage:
70.7 Mill
